Facts about plagiarism (Source: www.plagiarism.org)

- ➔ A study by The Center for Academic Integrity found that almost 80% of college students admit to cheating at least once.
- ➔ According to a survey by the Psychological Record, 36% of undergraduates have admitted to plagiarizing written material.
- ➔ A poll conducted by US News and World Reports found that 90% of students believe that cheaters are either never caught or have never been appropriately disciplined.
- ➔ The State of Americans: This Generation and the Next (Free Press, July 1996) states that 58.3% of high school students let someone else copy their work in 1969, and 97.5% did so in 1989.

What is VeriGuide?

VeriGuide is a computer system that allows users to analyze their documents and manages their submissions. Detailed statistical reports with originality percentage and readability grading will be generated to users.

VeriGuide aims to promote academic integrity with VeriGuide's similarity detection capabilities. It is the first automatic English and Chinese similarity detection system in the world. We match various formats of submitted files within the submission, with past submissions, internet resources and other provided databases. Originality reports will be generated to help teachers and students to review.
